Enter your final card options from check boxes above. Example: 1336LGGMN Final Part Number - (Options #)
Final Fart Number - (Options #)
125 kHz Card Programming Information
Format Number (example: H10301) Bit Numbers (example: 26 bit) Facility Code Encoded Card # Start Stop Printed Card # Start Stop HID Elite ICE Number (if applicable) (Custom Format) Site Code City Code OEM Code Special Instructions:
1 For new artwork files, contact Customer Service for custom artwork number, lead-times, and cost. 2 Cards ordered with plain white front and back packaging, with no HID artwork or with custom artwork, will still have a small "HID logo" " HID and reference number printed in the lower left-hand corner and a slot punch target printed on the back of the card. 3 The Printed card number is placed in the bottom right-hand corner on the back of the card. 4 Cards are provided with an optional slot punch at no additional charge. Some video imaging printers cannot accommodate pre-slot punched cards. Consult with the printer manufacturer prior to ordering. 5 For Laser Engraved Printed numbers, consult factory for lead times and cost. 6 Programmed as a sequential 12 digit number. * The composite construction is recommended for all cards that will have an over-laminate applied.
